

# DIY Cardboard Ice Cream Shop

## INSPIRATION STATION

Do you need an idea for entertaining the kids during the School Holidays? This pretend play shop is fun to make, and provides hours of fun for your little ones!

Made out of boxes, coloured card and tape, you can make it as simple or elaborate as you like. The main part is to get creative and have fun!

### Step two:

Decorate the shop with coloured card, glitter card, and stickers

**Tip:** You can attach the card with packaging tape, double sided tape or glue.

**Step one:** Make the shop with large boxes as the base, and a Science Project Board as the top half (cut out a hole for serving from before you attach the board)

### Step three:

Make a little pretend play ice cream cone set, out of patterned paper, tissue and card.

**Step four:** Add a mini whiteboard so that your kids can choose what's on the menu that day

**Clever poppy.**
