

Creative Journal Inspo

INSPIRATION STATION

Keeping a journal is a wonderful creative outlet, as well as a great way to keep organised and on top of life's many tasks. Read on for some tips on how to create beautiful and inspiring journal layouts.

Get Creative! Your journal is all about what makes your heart sing, so get as creative as you want. Try sketches, interesting hand drawn fonts and little illustrations. Pinterest is a great source of inspiration.

Use fun supplies: Using cute embellishments and stickers is all part of the fun! Go to town with detail and informative stickers that add an element of style to your layout.

Measure a grid: It helps to start with a grid that gives some order to your spread. You can start in pencil and draw over it with pen, then rub any leftover pencil out.

Photo Tip : Use an HP Sprocket for instant photo prints!

Clever poppy.
