MAKE YOUR OWN
ANIMAL MASKS

Great activity for
the holidays

ANIMAL MASKS

YOU WILL NEED:

- Mix of coloured card
- Scissors
- Mix of decorations (eg. stick-on diamantes)
- Retractable pencil
- Ruler
- Scissors (with fine end for the smaller details)
- Marker pens
- Double sided tape
- Ice block sticks
- Hole punch

INSTRUCTIONS:

1. Cut out template for the face, beak and feathers. You can download this mask template on our website.

2. Trace around the mask, flipping it over to create 2 sides.

3. Trace around the beak and feathers – we used 2 small, 3 medium and 1 large feather – have fun playing with colours and sizes.

4. Cut out the mask, beak and feathers, and fold the mask in half.

5. Score the back of your feathers down the middle, fold in half and snip, feathering down the sides.

6. Using adhesive tape or glue, stick an ice-block stick to the inside of the mask close to the edge.

7. Glue or adhesive tape the inside of the mask together, sandwiching your stick in place.

8. Using a big hole punch or scissors cut eye holes, tracing them out if you need to first.

9. Draw a tip onto your beak using markers and fold the tabs back. Glue down the tabs or use adhesive tape to stick the beak onto your mask.

10. Stick on your feathers – 1 big one in the centre, 2 medium either side, 2 small on the edge and one layered on top. Decorate your mask with stick-on embellishments and draw on any details to complete!
